

## The Egg to Chick Club 2014

The 2014 Egg to Chick Club is right around the corner. 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> grade students are invited to assist with this after school club. Students interested should fill out the form below and return it to Mrs. Thiebeau in room 311. Students are welcome to help on Tuesdays and or Thursdays. There is no fee.

This is a brief overview of what students will be assisting with:

The "From Egg to Chick" club is open to 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> grade students. Students will:

- explore the life cycle of chickens and ducks
- experiment with the chemical properties of egg shells
- observe osmosis in action
- engineer a device that will protect an uncooked egg from a two story fall
- solve math problems using addition and subtraction
- compare and contrast the development of chickens, ducks, and turkeys
- investigate problems and implement solutions

This year's club will follow a last year's "egg-citing" format! There will be **two** separate meeting dates. Club members will attend **one** day per week with some exceptions. **All** students will attend the last two club days, April 29<sup>th</sup> and May 1<sup>st</sup>. On the 29<sup>th</sup> students will engineer a protective device for an uncooked egg. All wrapped eggs will be dropped from the multi-purpose roof on the 1<sup>st</sup>.

Tuesdays will be the meeting day for 1<sup>st</sup> grade, and 2<sup>nd</sup> grade students.

Thursday will be the meeting day 2<sup>nd</sup> grade and 3<sup>rd</sup> grade students. **There will be a change of meeting day during conference week. The group will meet on Wednesday this week.** (See schedule below.)
